MEMORANDUM FOR: Deputy Director (Support) SUBJECT : Designation of Scientific Pay Schedule Positions The recently published regulation on Management of Specially Quali-Kied Scientific Personnel establishes a requirement for identifying those scientific positions which should be designated as Scientific Pay Schedule positions. The Scientific and Technical Personnel Advisory Committee discussed this requirement at its first meeting and agreed that the initial process of identifying these positions should be carried out on an Agencywide basis so that appropriate recommendations for establishing dollar and numerical ceilings could be made promptly. 2. We would therefore like to have your recommendations as to positions in components under your jurisdiction which you believe should be included in the initial designation of such positions. Since the Scientific and Technical Personnel Advisory Committee is responsible for reviewing all positions proposed for such designation and advising the Comptroller concerning budgetary, ceiling, and pay aspects of such action, you may wish to have your representative on the Committee, take part in the 25X1 development of your recommendations. 3. As you know, the recommendation that the Scientific Pay Schedule be approved indicated that it would be used sparingly at first in order to ensure an orderly implementation of this new system. Therefore, your recommendations should be geared to approved budgeted activities and programs and should list separately requirements for FY 1964 and FY 1965. You should also specify in each case whether the position will initially be filled from outside of the Agency or from within. Finally, your recommendations should include the following supporting data: Description of the nature of scientific or technical work to be performed; b. Statement of the accomplishment expected of the incumbent; and Explanation of the basis of the need for expert scientific qualifications. 4. I would appreciate receiving your recommendations by 31 May 1963 in order that we may proceed as quickly as possible with the initial designation of positions under the Scientific Pay Schedule. 25X1 Salary and Wage Division, extension is available to provide any assist-25X1 ance which your staff may desire in connection with the implementation of this program. 25X1 Emmett D. Echols Director of Personnel
